

RELY ON EXCELLENCE

Espey WKA1100HP

Carbon Floating Ring Seals | Shaft seals

Features

- Chamber seal (modular design - can be combined in any order), optional with housing and lid
- Very small operation gap - low leakage
- Dry running
- Seal rings bear radial shaft movements
- Compensates axial shaft movements
- No sealing components mounted on the shaft and hence no additional shaft vibrations
- Seal rings running contact-free - sliding faces and machine consume no additional power
- One-piece seal ring with titanium bandage
- Both side balanced seal ring inside chamber for short-term backpressure operation
- Seal ring axially spring-loaded - no swinging up at pressure-less machine operation

Advantages

- High reliability
- Long-term operation time
- Maintainability

Operating range

Shaft diameter:
 $d = 20 \dots 200 \text{ mm} (0.79 \dots 7.87 \text{")}$
 Operating pressure:
 $p = \text{vacuum} \dots 250 \text{ bar} (3,626 \text{ PSI}) \text{ abs.}$
 Operating temperature:
 $t = -120 \text{ °C} \dots +225 \text{ °C} (-184 \text{ °F} \dots +437 \text{ °F})$
 Sliding velocity:
 $vg = \text{max. } 240 \text{ m/s} (787 \text{ ft/s})$
 Radial play: $\pm 1.0 \text{ mm} (\pm 0.04 \text{")}$
 Axial movement: theoretically unlimited
 Recommended wear guard: $>58 \text{ HRC}$

Materials

Seal ring: Carbon with titanium bandage
 Chamber and housing parts: 1.4021, 1.4571, Hastelloy®, Titan, Inconel®, others
 Secondary seal (elastomer): Fluorocarbon rubber (Viton®), Nitrile-butadiene-rubber (Perbunan®), Perfluorocarbon rubber (Kalrez®)
 Secondary seal (flat gasket): Statotherm®-HT/HD, KSiL C 440

Standards and approvals

- FDA

Recommended applications

- Gases
- Fumes and exhaust, solids containing, flammable (Atex), acid containing and toxic gases
- (Solids containing) steams / liquid mist
- Oil mist / penetrating oil
- Water
- Oil and gas industry
- Refining technology
- Chemical industry
- Petrochemical industry
- Pulp and paper industry
- Metal production and processing
- Power plant technology
- CO2 transportation and storage
- Integral-gear compressors (one or multi-stage)
- Screw and chiller compressors
