

RELY ON EXCELLENCE

Statotherm Tape 6750/INC

Packings & Gaskets | Graphite seals & tapes

Features

Statotherm tape 6750/INC is a braided tape made from graphite yarn reinforced with Inconel wires. It also has an adhesive backing.

Advantages

- Does not age
- Easy handling
- Good resilience
- Outstanding chemical resistance
- High temperature stability

Operating range

Pressure

- with retention: p = 250 bar
- smooth raised face: p = 25 bar (6750/INC), p = 16 bar (6750)

- Continuous operation:
t = -200 °C ... +550 °C

Chemical resistance:

pH = 0 ... 14

Recommended applications

Industries

- Process industry
- Petrochemical industry
- Chemical industry
- Power plant technology
- Water and waste water technology
- Mining
- Building services engineering
- Shipbuilding
- Metal production and processing

• Flange connections

- Pipe connections
- Exhaust ducting
- Ovens
- Furnaces
